

RECRUITING NOW FOR JANUARY 2019

UC Irvine/ UC Davis Train New Trainers (TNT) Primary Care Psychiatry (PCP) Fellowship

The TNT PCP Fellowship is a year-long clinical education program for primary care-oriented trainees and providers who wish to receive advanced training in primary care psychiatry. Primary care psychiatry is targeted at the most frequently encountered mental health-related disorders and treatments.

Who Benefits?

Providers in these specialties could benefit from this fellowship: Internal medicine, Family medicine, Emergency medicine, Neurology, Physician assistants, Nurse practitioners, and Psychiatric nursing. Mental health providers are also welcome to apply.

Curriculum

The curriculum includes over 50 required hours of training and will lead to a certificate of completion from the UC Irvine Department of Psychiatry and Human Behavior:

- Two weekend teaching sessions (24-28 CME hours)
- One hour per month of individualized, in-person or teleconferenced mentoring sessions with a TNT fellowship faculty member/mentor (12 hours)
- Twice-per-month, live case-based discussions and patient interview with a focus on integrated primary care psychiatry. Learning sessions are held on the second Monday of each month from 12:00 pm – 1:00 pm and the third Monday of each month from 5:15 pm – 6:30 pm (PST) via teleconference. (20 CME hours)

Goals of TNT PCP Fellowship

Trainees will learn:

- How to complete an evidence-based and efficient psychiatric interview in the busy primary care or medical setting
- How to effectively diagnose and treat commonly encountered psychiatric conditions such as mood, anxiety, psychotic and substance misuse disorders
- How to teach these principles to their primary care colleagues

This is not a traditional or Accreditation Council for Graduate Medical Education (ACGME) approved fellowship.

Core Topics Include:

- Psychiatric Interview – AMPS Model
- Mental Status Exam
- Mood, Anxiety, & Trauma-Related Disorders
- Substance Misuse Disorders
- Somatic Symptoms Disorders
- Neurocognitive and Personality Disorders
- Primary and Secondary Psychotic Disorders
- Pain Psychiatry
- Suicide Risk Assessment
- Cognitive Behavioral Therapy
- Supportive Psychotherapy
- Motivational Interviewing
- Fundamentals of Psychopharmacology
- Population-based/Collaborative Care
- How to Train Providers

2019 Tuition: \$15,500 per fellow
