Dr. Hersevoort has extensive education and training in both the biological and psychological aspects of mental health. He holds undergraduate degrees in both biochemistry and clinical psychology from University of California, Davis, and California State University, Sacramento.

He also holds a Master's in Public Health in International Health and Development from Tulane University School of Public Health and Tropical Medicine in New Orleans, Louisiana. His medical degree is from Tulane University School of Medicine. His psychiatric training was completed at California Pacific Medical Center in San Francisco.

Dr. Hersevoort has work experience in virtually all environments of mental health services including outpatient, inpatient, crisis and emergency psychiatry. He is currently working at UCSF Fresno as the Director of Integrated Mental Health where he supervises an I.M.P.A.C.T. model patient care service as well as a primary care psychiatry education program for primary care, OBGYN and psychiatry trainees.
