

Amir Ramezani, PhD

Neuropsychologist/Associate Clinical Professor

Director, Neuropsychology & Health Psychology Training Program

University of California, Davis

Dr. Amir Ramezani provides assessments and interventions for individuals living with psychological and neurological injuries, traumas, and chronic conditions (e.g., TBI, complex trauma/PTSD, dementia, stroke, cancer, obesity, sleep). Dr. Amir Ramezani has experience in multiple clinical, professional community and educational leadership roles, including acting as the Director of the UC Davis Neuropsychology and Health Psychology Training Program, past Chair of the SVPA Behavioral Medicine and Neuropsychology Section, and past President of the Western Association for Neuroscience and Biofeedback (WABN).

Dr. Amir Ramezani's clinical training includes completing a fellowship in Neuropsychology at UCLA Semel Institute for Neuroscience, a fellowship specializing in Pain Psychology at UCSF, and a dual PhD in Clinical Health Psychology and Behavioral Medicine at UNT. He has received various assessment trainings (e.g., neurocognitive, psychological, civil and criminal forensic, geriatric, head injury evaluations). He has undergone multiple psychotherapy system trainings including CBT. He has held certifications in Eye Movement Desensitization and Reprocessing (EMDR), neurofeedback, and biofeedback. He received formal mindfulness teacher training in Mindfulness Self-Compassion (MSC; Trained MSC Teacher) and Mindfulness-Based Cognitive Therapy (MBCT).
